Why Invest In This Fund

Established in 1997, Canso is an independent firm focused on bottom up security selection. Proprietary research developed over multiple market cycles guides the investment of over \$28.2 billion in AUM.

Each security is assessed on its own merits using bottom-up, fundamental research. Canso uses its proprietary Maximum Loss grade, where the max loss quantifies recovery value in the event of a default. The greater the potential downside, the lower the portfolio weight. Canso believes in concentrating their best ideas and having high conviction portfolios with limited holdings.

This independent credit expertise enables Canso to buy securities when they are out of favour and priced at a discount to their intrinsic value.
