Why Invest In This Fund

Established in 1997, Canso is an independent firm focused on bottom up security selection. Proprietary research developed over multiple market cycles guides the investment of over \$32.8 billion in AUM.

Each security is assessed on its own merits using bottom-up, fundamental research. Canso uses its proprietary Maximum Loss grade, where the max loss quantifies recovery value in the event of a default. The greater the potential downside, the lower the portfolio weight. Canso believes in concentrating their best ideas and having high conviction portfolios with limited holdings.

This independent credit expertise enables Canso to buy securities when they are out of favour and priced at a discount to their intrinsic value.

Distributions are paid in cash or reinvested in additional units, or both. If the series' net income/capital gains is less than the amounts distributed in the year, the distribution will include a return of capital. In these circumstances, if an investor elects to receive their distributions in cash and not reinvest distributions, it is expected that the value of their investment will decline over time. Distributions are not an indication of performance, rate of return or yield. ⁴The Fund won a Lipper Award in the Global Corporate Fixed Income category for the three-year period (out of a total of 11 funds) ending July 31, 2018.
